

Master Controller

MC 140

Features

- Two analogue output signal for speed and braking reference
- Emergency brake position
- "Push down" dead man function
- Four digital signals for main handle positions. (Costing, traction, braking, emergency brake)
- Mechanical locking device

Technical description

- Master Controller built up of anodised aluminium parts. Main shaft is made of surface treated steel.
- Handle and top plate can be easily customized with respect to customers demands.
- Basically designed to be maintenance free and doesn't need to be greased -or oiled.

Technical data

- Power supply for analogues signals: 15VDC + -5%
- Analogues output level: 1,0 VDC- 9,0 VDC
- Power supply for digital signals: Max 110VDC 0,5A resistive
- Digital outputs: 4 switches for lever positions
2 switches for dead man handle
- Electrical interface: 2 pcs Wago 16-pol female connectors
- Weight: 5,5kg
