

Master Controller

MC 150

Features

- Two analogues output signals for speed and braking references
- Emergency brake position
- "Push down" dead man function
- Six digital signals for main handle positions. (Costing, traction, braking, emergency brake)

Technical description

- Master Controller built up of anodised aluminium parts. Main shaft is made of surface treated steel
- Handle and top plate can be easily customized with respect to customers demand
- Basically designed to be maintenance free and doesn't need to be greased or oiled
- Digital and analogues output signals
- Adjustable handle forces

Technical data

- Power supply: 24 VDC
- Analogues output level: 10% - 90%
- Digital outputs: 6 pcs. for lever positions, max 110 VDC 0,5A resistive
2 pcs. for dead man handle
- Electrical interface: 2 AMP 16 Pole mail connectors
- Weight: 5,5kg
