HP-003 Environmental Policy

AQ Transformer Solutions, Inc. distributes, develops, and manufactures transformers and inductors. With our commitment to provide superior quality products and services our customers become long-term partners.

With our products and service provision we enable energy efficient customer applications and focus on minimal use of resources considering a life cycle perspective.

We are committed to continual improvement of our Environmental Management System to enhance its performance by setting measurable objectives and targets as we pursue our commitment to protect the environment by preventing pollution.

Our business complies with applicable environmental legislation, regulatory requirements, and other obligations, as well as the requirements of internationally recognized environmental management standards.

All employees are responsible for the environment.
